

I am writing this in regards to the radio station I primarily listen to, K-LOVE (on 96.1 in KCMO). I am an avid listener to this radio station. Their tag line, "positive & encouraging", isn't just fluff words. It's the truth. To turn on the radio & hear positive & encouraging music, positive & encouraging djs, & positive & encouraging listeners calling in just blesses me. It's wonderful to hear how the different ministries at K-LOVE affect listeners in a positive & encouraging way. It's nice to be able to turn on the radio & know that I don't have to screen the music & djs for fear of something they might say or fear of some inappropriate song that might be played. It think it would effect my local community in a negative way if K-LOVE were to be displaced by an LPFM broadcaster providing other programming. It would deeply hurt the Christian community & those who just want to listen & learn, not sure of their faith. It would be in the public's best interest for K-LOVE to continue on as it is. I implore you that K-LOVE be allowed to stay on the airwaves in my community.

Thank you for your time,
Alpha M. Curry
